## Item 3c

### Update on Member Agency Dashboard

#### Subject

Update on Demonstration of Member Agency Dashboard with Climate Projections

#### Purpose

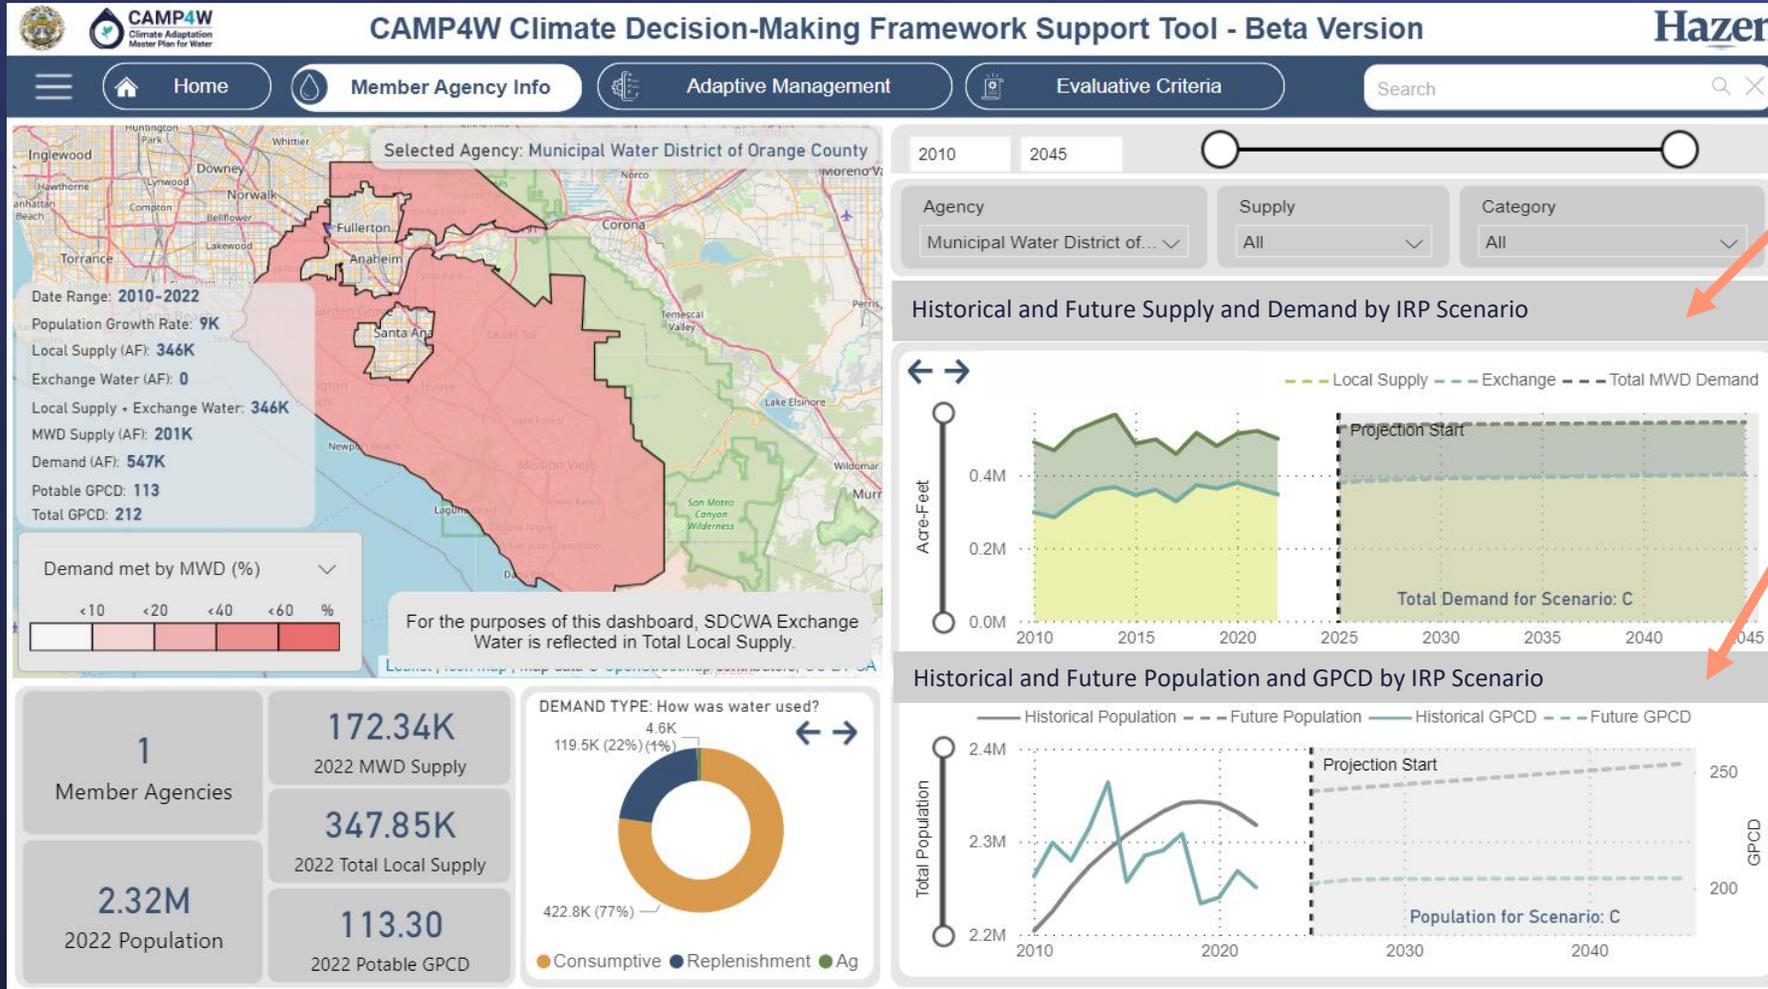

The CAMP4W process will establish a methodology for evaluating options through a Climate Decision-Making Framework and will provide a roadmap for identifying solutions to mitigating the identified risks. It will be a living document that will be updated to identify changing conditions and to report those changes to the Board.

This Committee Item focuses on the development and use of Member Agency Dashboard and provides an overview of how Dashboard will integrate into the CAMP4W process.

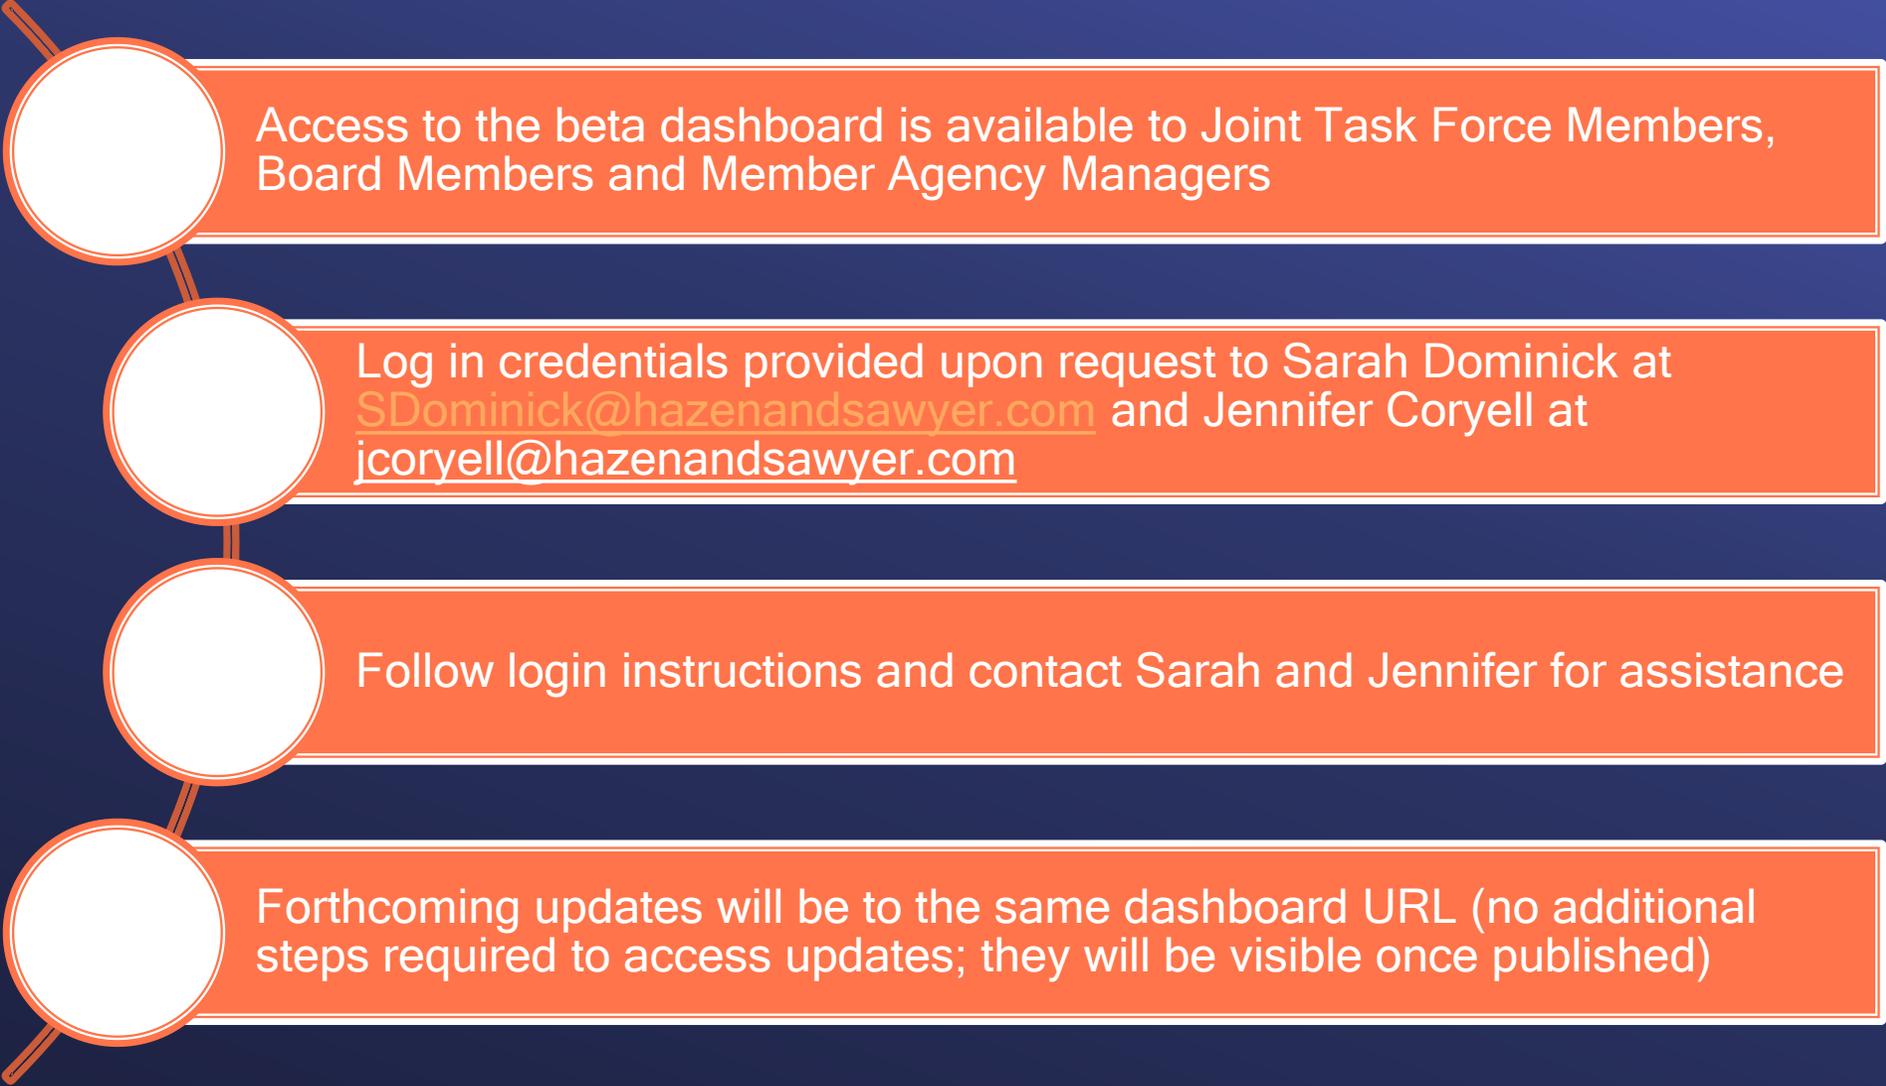

# Live Demonstration of the Member Agency Dashboard with Climate Projections

# Forthcoming Updates: Future Projections

Future projections by IRP Scenario (A, B, C, D) are being added

# Access Instructions for Member Agency Dashboard

Access to the beta dashboard is available to Joint Task Force Members, Board Members and Member Agency Managers
